Professional Summary

Electronic Engineering graduate with over two years of experience in software development, process automation, and data processing for public-sector projects. Skilled in Python, Microsoft SQL Server, document and image processing, and Windows/Linux infrastructure, with a focus on reliable results, data quality, and process improvement.

Professional Experience

Servicios de Archivos Fisicos y Digitales S.A.C.

Software Developer

Lima, Peru

Jan. 2024 – Present

- Developed and operated digitization pipelines for public-sector projects using **Python and Microsoft SQL Server**.
- Automated large-scale PDF and Excel ingestion and validation, as well as image processing through **OCR, OMR, and ICR**, including barcode and QR code recognition.
- Administered on-premises Windows/Linux servers and VMware infrastructure, supported selected cloud deployments, and applied quality practices through Git/Gitea version control, technical documentation, and operational reporting.

WOW TEL S.A.C.

NOC Operator

Lima, Peru

Sep. 2023 – Jan. 2024

- Monitored the FTTH network 24/7 using **Zabbix, Nokia AMS, and Huawei NCE**, managing alarms across Huawei, Nokia, and CDATA OLTs.
- Logged, tracked, and escalated incidents through **Jira**; coordinated field support, supported VoIP provisioning, and prepared continuity and KPI reports, including availability and MTTR.

Selected Project

ENLA 2024–2025 - National Learning Achievement Assessment

MINEDU, Peru

- Contributed to the development and operation of the data capture platform for Peru's National Learning Achievement Assessment.
- Implemented Python-based image-processing workflows, performed quality control on captured data, processed over **170 million records** in Microsoft SQL Server, and contributed to official report generation and deliverables for MINEDU.

Technical Skills

Programming: Python, SQL (T-SQL), FastAPI

Document and image processing: OpenCV, PyMuPDF, OCR, OMR, ICR, barcode and QR recognition

Databases: Microsoft SQL Server, MySQL

Infrastructure and cloud: Windows Server, Linux, VMware ESXi, IIS, AWS EC2, Global Accelerator, Textract, RDS

Tools and monitoring: Git, Gitea, Jira, Postman, Microsoft Excel, Zabbix, Nokia AMS, Huawei NCE

Telecommunications: Axios, Convergia, VoipSwitch

Education

Universidad Peruana de Ciencias Aplicadas (UPC)

Bachelor's Degree in Electronic Engineering

Lima, Peru

Mar. 2020 – Dec. 2024

Languages

Spanish: Native **English:** Fluent **French:** Basic
